

# Year 6 Newsletter

May 2025

## Summer Term 2

## Upcoming events

Thank you for all your support over this year, particularly the last half term where children have worked exceptionally hard to prepare for their SATs.

We can't wait to make lots of exciting memories for them during their final half term at Farnham!

### End of year surprises - TBC

### Friday 18<sup>th</sup> July - Year 6 leavers' performance

## What we're learning next half term

### English

We are working hard to complete our final writing pieces of the year. We are going to be writing about 'Bradford City of Culture 2025' and developing our editing skills.

### Maths

In maths, we will be completing a variety of fun projects that will allow us to revise the key skills we have learnt this year and prepare us for year 7.

### PSHE

We will be learning about how to adapt to change and preparing ourselves for our transition to our new schools.

### Science

We will be learning all about sources of light, how light travels and how our eyes are protected from the light.

### DT and enterprising

We will be preparing for our final leavers' performance by creating props and we will be developing our enterprising skills by creating goods to sell in school.
