

Year 2 Newsletter

Autumn Term October 2025

Children have been superstars with their learning so far. Please remember to read your books at home, practise your spellings and log onto TT Rockstars for your times tables.

PE days

Jeffers Class - Monday and Tuesday
Coelho Class - Monday and Friday

Upcoming events & other news

Jeffers Class Assembly - 27th November
2.45pm - 3.00pm

What we're learning this half term

English

In English, we are going to read a story about a child called Binny and their Diwali celebrations. We will make artwork linked to the book and write instructions to tell someone else how to do it. We will learn to join ideas to make longer sentences using 'but', 'and' and 'because'.

Maths

In maths we will be looking at mass, length and height. We will be measuring objects, seeing how tall or short they are and learning how to use a ruler correctly.

We will continue to look at geometry and learn about 2D and 3D shapes.

Geography

We will begin learning about hot and cold places. What is the North and South Pole and why the equator is so important.

We will also be learning about the continents of the world.

Science

In science we will follow up our work on habitats by learning about mini beasts and their micro-habitats. We will go on a mini beast hunt, identify mini beasts and carry out an experiment to find out what conditions some mini beasts prefer.

RE

We will start looking at rules that we have and why we need them. We will look at different religions and what rules they follow and what consequences there may be when we don't follow rules.
